

Producer: Prima Protein AS

Country of origin: Norway

Product Description

Prima NSM is a special quality fishmeal produced from high quality raw material. It is a whole meal processed produced in our modern facility under strict technical, hygienic, and eco-friendly standards. The production plant operates according to Hazard Analysis and Critical Control Point (HACCP) principles and complies with the extensive approval framework required for quality-assured operations. Every production lot is analysed by an independent accredited laboratory to verify chemical composition and microbiological safety.

All fish used in this product originates from responsibly managed stocks regulated by national fisheries authorities. No fish species classified as endangered by recognized conservation authorities is used.

Product applications

Prima NSM fishmeal rich in high-quality proteins and minerals, offering excellent digestibility and making it well-suited for both animal and aquafeed formulations.

Product Specifications

Parameter	Specification
Protein	Min. 68 %, typical 70 – 73 %
Fat (Soxhlet)	Max. 13 %
Moisture	Min. 6 %, max. 10 %
Ash (salt-free)	Max. 14 %
Salt (NaCl)	Max. 5 %
Total Volatile Nitrogen (TVN)	Max. 0,20 % NH ₃ -N
Cadaverine	Max. 1,8 g/kg (1800 ppm)
Histamine	Max. 0,7 g/kg (700 ppm)
Antioxidant	Natural antioxidant is added after milling
Salmonella	Not detected
Contaminant	EU limits
Quality of raw material	TVN max. 60 mg N/100g

Shelf Life: Minimum 12 months when stored dry at ambient temperature.

GMO Statement: The product is not derived from genetically modified organisms (GMO).

Packaging: Bulk delivery / 1000 kg bags.
